

FACT:

On average, an American dies of cardiovascular disease every 37 seconds.

Trust your heart to Frye Regional Medical Center, the hospital that has been named
“Best in the Charlotte Region* for Overall Cardiac Care”
by HealthGrades, a leading national provider of healthcare ratings.
Call to schedule your heart-health screening today.

Screening includes:

- Electrocardiogram (EKG) read by a cardiologist
- Lipid test, including HDL, LDL, total cholesterol and triglyceride levels
- Glucose level check
- Blood pressure check
- Body Mass Index (BMI) check
- Health risk assessment

ONLY \$39**

To register:

Please call **828-315-3278**.

Appointments are necessary and space is limited. Walk-ins cannot be permitted due to staffing and equipment requirements. Participants must provide a physician name to whom the follow up results can be sent, or accept a physician name from our complimentary Physician Referral Service for that purpose.

(Statistics according to the 2006 Heart and Stroke Statistical Update, American Heart Association.)

*“Region” as defined on www.healthgrades.com.

** Cash, check or credit card only. No insurance accepted or filed for this screening.
