

Lung Cancer Screening

Please complete this form and discuss with your healthcare provider.

If you are you a smoker or former smoker, a low-dose CT lung screen could save your life.

Am I High Risk?

If you have ever been a smoker and answer “yes” to any of these questions, you may be considered high risk for lung cancer.

- Are you over the age of 55? Yes No
- Are you a smoker or have you quit smoking within the last 15 years? Yes No
- On average, do you now or have you ever smoked at least one pack of cigarettes per day? Yes No

Other risk factors include:

- Radon or occupational carcinogen exposure (asbestos, arsenic, diesel fumes, etc.)
 - Family history of lung cancer
 - COPD or pulmonary fibrosis
 - Personal history of cancer or lymphoma
 - Prolonged exposure to second-hand smoke
-

Your insurance may or may not cover the cost of a low-dose CT screening for detection of early-stage lung cancer. This screening is covered by Medicare when ordered by your doctor after a lung cancer screening counseling appointment.
